A WORK OF ART.

Worth more than passing mention is the window of the Bee Hive store, dressed by Miss M. E. Shank. The first impression one receives on catching sight of this window is purity, white predominates, but the national colors are beautifully blended on the figure of Liberty in the center of the window, giving a simple stateliness that is most charming in effect. Although the window dress, the careful and artistic draping looks at first glance an easy task to dress, the careful and artistic draping cost many hours of hard work.

A PRIZE WINNER.

Every Christmas and Fourth of July, many weary hours, much thought, and mechanical and artistic ingenuity is brought into play by a store window dresser. In a great metropolis large amounts of money are expended by all the big stores to make their window the most attractive. In a town the size of Astoria it is much harder to obtain the necessary things to dress a window, but these obstacles have been overcome by E. H. Stone, window dresser, at the store of P. A. Stokes, whose three windows each represent a color, red, white and blue—the two outer ones having large figures, 1776 and 1906, which at night, sparkle with tiny lights that can be seen far up the street. The center window is white with pictures of Washington and Roosevelt on either side of a Liberty bell.

Why don't you have your work done by the Eastern Painting & Decorating Company, 75 Ninth street? They do the work cheaper, quicker and better than any other firm. The Parker House which is being papered and painted from cellar to garret is being done by them. Go and inspect the work.

Miss Maja Frederickson will give a violin recital to present her pupils on Monday evening.
